

# FlexyPox

**One for all -  
the **true-blue** resin!**

**Flexible in every respect:**

**Wide range of applications**

**Adaptable to all geometries**

**Permanently flexible after curing**

## Flexibility is the name of the game: FlexyPox adapts to every challenge

### The core competences

- ♦ High-quality two-component Epoxy resin
- ♦ Seals reliably
- ♦ Shock-absorbing effect, as permanently flexible
- ♦ Excellent mechanical and chemical resistance
- ♦ High adhesive effect - even on wet substrates
- ♦ Easy, fast and safe application
- ♦ Fast and crack-free curing
- ♦ Air-free mixing thanks to well thought-out packaging and a specially adapted mixing system

### Fields of application

- ♦ Permanently flexible manhole frame regulation
- ♦ Renovation of floating manhole covers
- ♦ Sealing of joints, cracks, holes or wall ducts
- ♦ Manhole neck coating e. g. for separators
- ♦ Sealing of manholes e. g. for separators
- ♦ Flexible bonding of movable components
- ♦ Daywater-tight bonding of covers
